The Commemorative Air Force presents seven classic WWII aircraft for a weekend of vintage aviation history at Tyler's Historic Aviation Memorial Museum! Appearing for the Independence Day weekend and in conjunction with the Thunder Over Cedar Creek Airshow are the famous B-17 Flying Fortress *Texas Raiders*, the mighty Marine Corps B-25 gunship and bomber *Devil Dog*, the high-speed A-26 attack aircraft *Night Mission*, as well as *Helldiver*, the only flying SB2C dive bomber in the world, plus two classic WWII trainers and a Navy transport in which the family can fly together.

Tour or fly on these historic warbirds, then see all seven of them perform at the Thunder Over Cedar Creek Airshow at twilight on Saturday July 6th. Put your hands on history with on-board tours or take the ultimate Living History Flight Experience, and see Tyler from the sky! Online reservations start at \$100 for the transport, \$255 for the trainers, \$395 for the B-25 and \$475 for the Flying Fortress.
